## ART IN THE LIBRARY

**Steve Field**

**December 5 to February 24**

Cross Plains resident, Steve Field, is a self-taught woodcarver who began his woodcarving career in 1988. He uses power tools to carve birds, animals, and fish out of basswood and tupelo. Once the carving is done, each object is painted and a habitat is created for displaying the piece.

Steve taught woodcarving through the Madison Area Technical College in Middleton and Cross Plains from 1990 to 2005, and is an award-winning carver who competes in the open or masters class in local and national competitions. Steve and his highly-acclaimed art have been featured in *Woodcarving Illustrated* magazine which featured a photograph of one of his carvings on their magazine cover.

**Claudia Daniel's** multi-media exhibit has been extended through February 24. Please stop by the library and enjoy!

***Carbon Nation***

***For The Price of a Cup of Coffee***

***Extreme Heat***

Join us for a triple treat! ***Carbon Nation*** is a documentary movie about climate change solutions. Even if you doubt the severity of the impact of climate change or just don't buy it at all, this is still a compelling and relevant film that illustrates how solutions to climate change also address other social, economic, and national security issues. You'll meet a host of entertaining and endearing characters along the way. ***For the Price of a Cup of Coffee*** is a 15-minute documentary examining the life cycle of a paper cup and the repercussions of a society reliant on convenience. Why are fewer than 1% of coffee shop patrons bringing their own cups? Why do we have so much garbage, and where does it go? What is the true cost of a disposable culture? This film is full of information that all consumers should know about the products that we use every day, and the steps we need to make towards a more sustainable world. We will also be showing ***Extreme Heat***, a Wisconsin short film.
